At the Uplands Hotel since Friday to Debtors and Creditors without be addressed.

A Return of Monday morning by our Sz in the way of making science pleasing...

The Social and Hunting Club.

The most interesting of the week was the meeting of the Moz Art Club, which I have been attending all week. The attendance was good, and the speeches were interesting. It seems to be more and more popular.

The Phrenological Journal.

In my reading of The Phrenological Journal, I have found some interesting articles. One was on the subject of the brain and its functions. Another was on the importance of diet in the development of the mind.

At the regular meeting of the society, Mr. Johnson spoke on the subject of the brain and its functions. He gave an interesting account of the discoveries made in this field, and the importance of diet in the development of the mind.

Dodge Sheriff Sales.

The sales of real estate and personal property were held at the courthouse square on Thursday and Friday. A large number of persons attended, and there was much interest in the proceedings.
